

Re-Match releases half year report

31.8.2022 20:51:15 CEST | Re-Match Holding A/S | Company Announcement

Herning, Denmark, 31 August 2022 - At Re-Match Holding A/S ("Re-Match"), a pioneer within sustainable recycling of artificial turf, the board of directors has approved the half year report covering the statutory period 1 January 2022 - 30 June 2022. The half year report is attached to this company announcement and available on the company website.

During the first half year after its public listing, Re-Match has continued to deliver on key milestones detailed in the Prospectus. The machinery in the new factory building in the Netherlands is now being installed and the supply of synthetic turf materials is already secured for the first year of production. In France the joint-venture is progressing to plan and the same is the case for activities in the USA where Re-Match is also making strong headway. Meanwhile, the company has been impacted by overall higher costs in 2022 compared to 2021 due to the unceasing global increase in energy costs - a trend that has also continued into the second half of the year.

To receive a more detailed update, it is possible to register for Re-Match's event on 2 September 2022 where the company will present its half year report to shareholders via HCA Capital:
